

## Statement of Collaboration

The success of every individual at Spokane Valley Adventist School depends on the fullest cooperation among students, parents/guardians, faculty, staff, and administration. SVAS values each student by providing a safe environment for spiritual, academic, social, and emotional learning.

In order to provide this environment, students are expected to be responsible for their conduct on and off campus and to adhere to the following tenets of collaboration:

- › Develop physical, mental, and spiritual energies in order to honor God
- › Build and maintain healthy and supportive relationships with others
- › Include, respect, and protect the rights of all people at all times, including photos, online postings, and audio and/or video recordings
- › Respect and protect the property of the school and other persons
- › Strive for achievement of academic goals and growth, and support others toward achievement of their goals
- › Endeavor to positively influence and assist others in supporting these values

In addition, parents/guardians are expected to:

- › Encourage their child/children to uphold the above values and all school policies
- › Support the efforts of the school staff to provide a safe and orderly school environment
- › Keep your child at home when ill

---

We have read the Statement of Collaboration adopted by this school and understand that meeting its requirements is a condition of continued enrollment at SVAS. We will read the SVAS School Handbook and agree to uphold and follow all school guidelines and policies, whether explicitly written or verbally expressed.
